[Title] Production Discontinuation of GT SoftGOT1000 License Key (For Parallel Port)

[Date of Issue] October 2010

[Relevant Models] GOT1000 Series

Thank you for your continued support of Mitsubishi Graphic Operation Terminal (GOT).  
Production of the GT SoftGOT1000 license key (for a parallel port) will be discontinued as shown below.

## 1. Models to be Discontinued and Schedule

Product	Model	Order acceptance	Production discontinuation	Repair acceptance
GT SoftGOT1000 license key (For parallel port)	GT15-SGTKEY-P	Through June 30, 2011	July 31, 2011	Through July 31, 2018

## 2. Reasons for discontinuing production

We have difficulty to obtain some electronic parts for the GOT, including microcomputers, memories, and ASICs. The reason is that stricter process rules have become standard in recent years. We also have to meet environmental conservation needs. We are about to run out of parts for the model to be discontinued, and we will have difficulty to maintain the production system and product quality.

## 3. Alternative model

Model to be discontinued	Alternative model	Remarks
GT15-SGTKEY-P ( For parallel port )	GT15-SGTKEY-U ( USB Port )	Replacing the license key for a parallel port with the one for a USB port

To use the alternative model, the personal computer must have USB ports.  
The model to be discontinued and the alternative model have no difference in functions.
