

[Issue No.] GOT-A-0103

[Title] Rechange of the Liquid Crystal Display for a GT27 Model

[Date of Issue] September 2016

[Relevant Models] GOT2000 Series

Thank you for your continued support of Mitsubishi Graphic Operation Terminal (GOT).

Affected by the Kumamoto Earthquake, we have shipped a GT27 model for which the liquid crystal display (LCD) is temporarily changed based on our company's BCP*1.

For details, refer to the following.

→ Change of the Liquid Crystal Display for a GT27 Model (GOT-A-0098)

We announce that now we are ready to ship a GT27 model with the liquid crystal display (LCD) that had been used before the Earthquake.

*1 BCP: Business Continuity Plan

1. Target product

GT2710-STBA

(GOT2000 series GT27 model, 10.4" SVGA, AC power supply)

2. Details of change

The LCD of the target product is changed back to the LCD that had been used before June 2016 or earlier.

3. How to check the target product

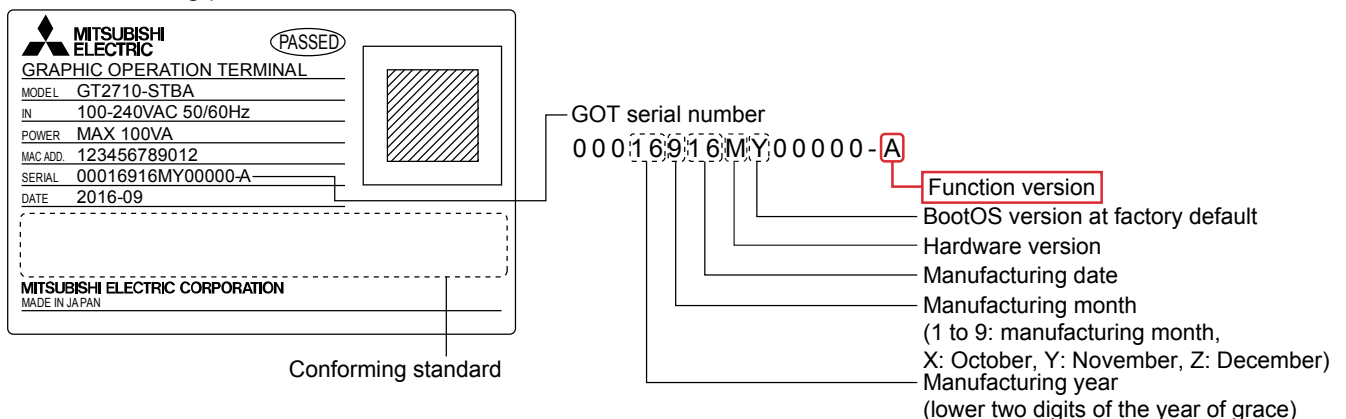

The target product has function version A.

* The target GT27 model for which the liquid crystal display (LCD) is temporarily changed has function version B (manufactured in June 2016 to September 2016).

The following shows how to check the function version.

■1. Rating plate (GOT rear face)

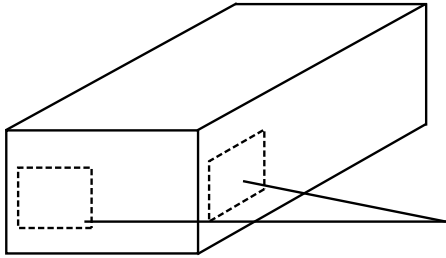

Check the rating plate for the function version.

[Issue No.] GOT-A-0103

■2. Packing box

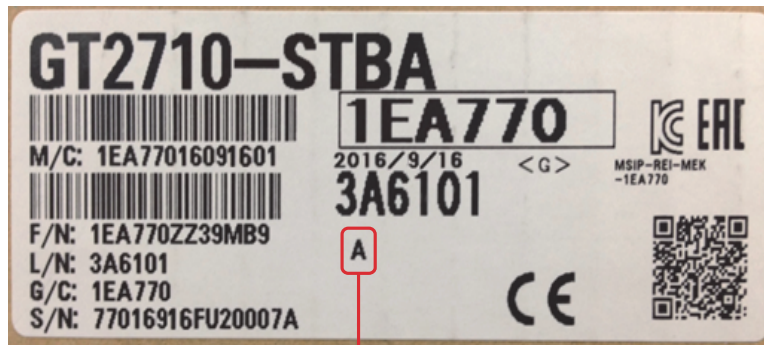

Alternatively, check the label on the packing box for the function version.

The conforming standards (such as CE) are described.*1

*1 Note that the position of the label varies with the shipment date.
