

## **TECHNICAL BULLETIN**

**[ 1 / 1 ]**

[Issue No.] GOT-A-0114-A

[Title] Compliance with the EU RoHS Recast Directive 2011/65/EU

[Date of Issue] March 2017 (Ver. A: July 2017)

[Relevant Models] GOT2000 Series, GOT1000 Series

---

Thank you for your continued support of Mitsubishi Electric Graphic Operation Terminal (GOT).  
From July 22, 2017, the EU RoHS Recast Directive 2011/65/EU will apply to our FA equipment. The target products to be marketed in the EU member states must be compliant with the directive after July 22, 2017. The following shows a compliance guide for the GOT.

### **1. EU RoHS Recast Directive**

From July 22, 2017, the GOT will be subject to the EU RoHS Recast Directive 2011/65/EU (RoHS 2). The GOT is compliant with RoHS 2.

\* For the restriction of the use of four additional substances (DEHP, BBP, DBP, and DIBP), compliance will be achieved by July 2021, the deadline for the industrial monitoring and control equipment.

### **2. Models compliant with RoHS 2**

The CE mark-bearing models are compliant with RoHS 2.  
For details, contact your local sales office.

\* FA equipment connection cables manufactured by our company are compliant with RoHS2.  
(The discontinued cables as of July 2017 are excluded.)

### **3. Changes**

No change will be made to the product specifications (including the general specifications, performance specifications, power supply specifications, and functions) along with compliance with RoHS 2.

### **4. EU RoHS Directive compliance of our FA equipment**

For the EU RoHS Directive compliance of our FA equipment, contact your local sales office.

## **REVISIONS**

Version	Print Date	Revision
-	March 2017	- First edition
A	July 2017	- Descriptions have been revised.
