Packaging Specification Change for GT2505HS-VTBD

■Date of Issue

May 2022

■Relevant Models

GOT2000 Series (GT2505HS-VTBD)

Thank you for your continued support of Mitsubishi Electric Graphic Operation Terminal (GOT).

This bulletin informs you that we will change the packaging specifications of a model to protect the products from damage due to vibrations during transportation.

This change does not affect the product specifications, functions, and external dimensions of the products.

GOT-A-0187-A

1 Affected model

GT2505HS-VTBD

2 Details of the change

The GOT front face will be covered with an antistatic sheet.

Before (without antistatic sheet)	After (with antistatic sheet)
	

3 Schedule

The change will be made sequentially from the July 2022 production.

There may be cases where both the former and new packaging methods exist in the distribution stage.
