

Discontinuation of the Wireless LAN Communication Unit (GT25-WLAN)

■Date of Issue

July 2023 (Ver. C: February 2025)

■Relevant Models

GOT2000 Series

Thank you for your continued support of Mitsubishi Electric Graphic Operation Terminal (GOT).

This bulletin informs you that we will discontinue the production of the wireless LAN communication unit (GT25-WLAN) for the GOT2000 series as shown below.

CONTENTS

1	Model to be Discontinued and Schedule	2
2	Reason for Discontinuation	2
3	Replacement Models	2
4	Compatible Products	2
4.1	Wireless LAN adapter	2
	REVISIONS	3

GOT-A-0212-C

1 Model to be Discontinued and Schedule

Product	Model	Transition to made-to-order production	Order acceptance	Production discontinuation	Repair acceptance
Wireless LAN communication unit	GT25-WLAN	March 1, 2024	Through February 28, 2025	March 31, 2025	Through March 31, 2032

In China, sales of the wireless LAN communication unit will end as of January 27, 2024.

The sale of the included manual will also end at the same time as the discontinuation of the unit.

For the SRRC certification of the wireless LAN communication unit, refer to the following.

 Wireless LAN Communication Unit (GT25-WLAN) to be Withdrawn from the SRRC Certification (GOT-A-0211-A)

2 Reason for Discontinuation

Due to finer process rules in recent years, we have difficulty in continuously procuring conventional parts for the wireless LAN communication unit (GT25-WLAN), such as semiconductor parts which are the main electronic parts.

Although we have continued the production by stocking adequate discontinued parts or in other ways, maintaining the future production system has become difficult, and thus we have decided discontinuation.

3 Replacement Models

There is no replacement model.

Please consider using a commercially available wireless LAN adapter.

4 Compatible Products

This section describes Compatible Products of the GOT2000 series.

Compatible Products satisfy the interface specifications of Mitsubishi Electric modules.

However, compatibility is not verified by Mitsubishi Electric.

Use Compatible Products according to their specifications.

Some Compatible Products may not be connectable due to specification change by the manufacturer depending on the date of manufacture.

Verify Compatible Products, and determine whether or not to use the products.

For the production status of each Compatible Product, contact your local distributor.

4.1 Wireless LAN adapter

The following table lists Compatible Products.

Distributor	Manufacturer	Model
Mitsubishi Electric System & Service Co., Ltd.	MOXA Inc.	AWK-3131A series
Mitsubishi Electric System & Service Co., Ltd.	ATOP Technologies, Inc.	AW5500

When using a Compatible Product, refer to the relevant manual.

Precautions

- The wireless LAN adapters (Compatible Products) are not built in the GOT but attached externally.
- When connecting a wireless LAN adapter (Compatible Product), use one channel of the Ethernet communication port of the GOT.

If there is no available Ethernet communication port of the GOT, use an Ethernet communication unit or Ethernet hub.

GOT-A-0212-C

REVISIONS

Version	Print date	Revision
A	July 2023	• First edition
B	October 2023	• Added Compatible Products.
C	February 2025	• Added a description about the end of the sale of the included manual.
