GOT-A-0266-A

LCD (Display Device) Change for the GT2105-QTBDS and GT2105-QMBDS

■Date of Issue

December 2025

■Relevant Models

GOT2000 Series

Thank you for your continued support of Mitsubishi Electric Graphic Operation Terminal (GOT).

This bulletin informs you that the LCD (display device) of the relevant GOT2000 series models will be changed.

This change does not affect the general specifications, product specifications, performance, and external dimensions of the GOTs.

However, colors on the LCD and display characteristics may be slightly different.

GOT-A-0266-A

1 Models affected and schedule

The following shows the affected models, their hardware versions after the LCD change, and the schedule for the change.

Table 1 List of the models affected and their hardware versions after the change

GOT	Model	Hardware version before the LCD change	Hardware version after the LCD change	Schedule
GT21	GT2105-QTBDS	B	C or later	December 2025 production and later ^{*1}
	GT2105-QMBDS	B	C or later	January 2026 production and later ^{*1}

^{*1} There may be cases where both the former and new products exist in the distribution stage.

2 Details of the change

The LCD (display device) will be changed.

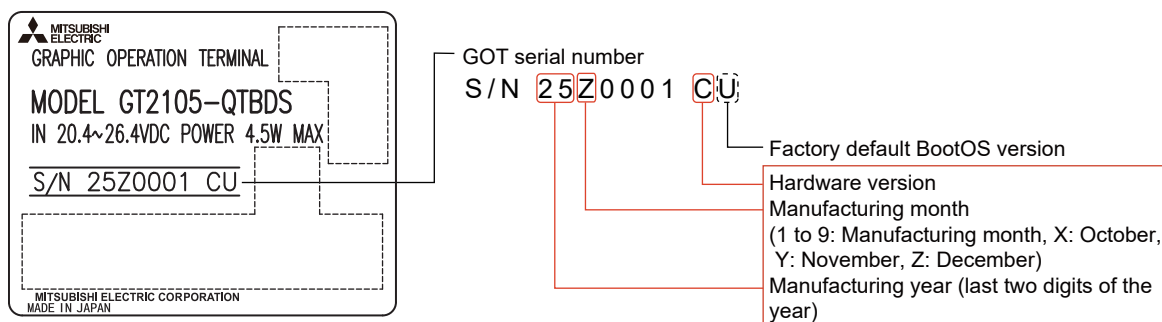

The hardware versions will also be changed accordingly.

3 How to check the affected models

The following GOTs are affected.

- GT2105-QTBDS: Manufactured in December 2025 or later with hardware versions listed in Table 1 or later
- GT2105-QMBDS: Manufactured in January 2026 or later with hardware versions listed in Table 1 or later

Check the hardware version and date of manufacture on the rating plate of the GOT.
