[Page] 1/1

[Title] Corrections in manuals supplied with the Q64AD, Q68ADV, or Q68ADI

[Date of Issue] December 2010

[Relevant Models] Q64AD, Q68ADV, and Q68ADI

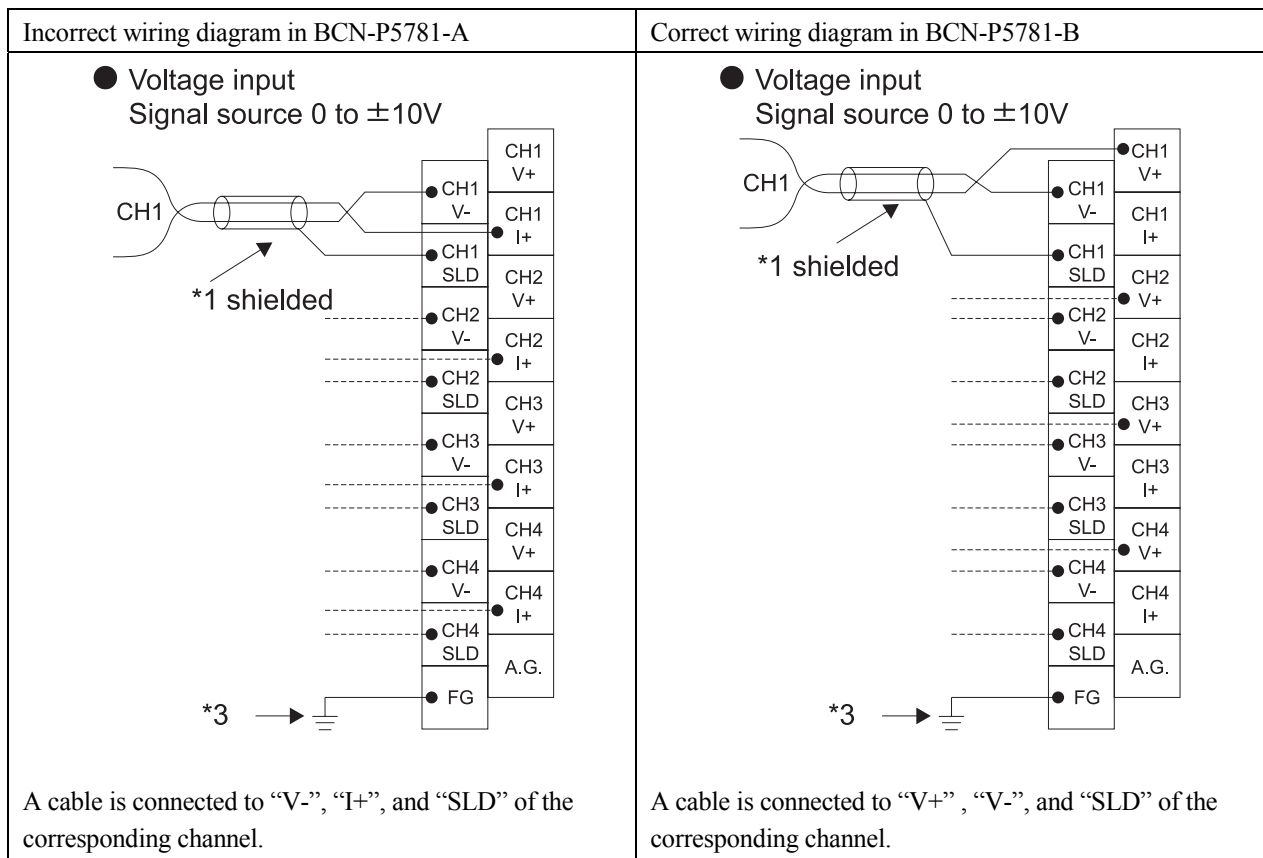

Thank you for your continued support of Mitsubishi programmable controllers, MELSEC-Q series.

This bulletin provides information on a correction of a wiring diagram for the Q64AD in the manual, Before Using the Product (BCN-P5781-A), supplied with the Q64AD, Q68ADV, or Q68ADI since August, 2010.

The contents of this technical bulletin are included in the Before Using the Product (BCN-P5781-B) supplied with a module shipped after November, 2010.

1. Correction details

The wiring diagram for the Q64AD is corrected as follows.

2. Operation when the module is incorrectly wired

When the Q64AD is incorrectly wired as shown above, it is regarded as not-wired. The module will not fail even when incorrectly wired.
