[Title] Addition of the China RoHS marks to our products

[Date of Issue] June 2016

[Relevant Models] MELSEC series

Thank you for your continued support of Mitsubishi programmable controllers. We will inform you of adding the marks compliant with the new China RoHS directive ("电器电子产品有害物质限制使用管理办法") to our products. This change does not affect the general specifications, performance specifications, functions, and external dimensions.

1. Reason for the change

The new China RoHS directive ("电器电子产品有害物质限制使用管理办法") has been published on January 21, 2016. We will add the marks compliant with the China RoHS to our products manufactured on July 1, 2016 and later.

2. Details on the change

The China RoHS marks are added to the products.

Product	Mark
Indication for the products that contain components above the limits of the hazardous substances <ul style="list-style-type: none"> • An Environmental Friendly Use Period (EFUP) mark (as shown to the right) • A table disclosing the names and each quantity of the hazardous substances (written in Chinese, and enclosed with products) 	
Indication for the products that do not contain components above the limits of the hazardous substances <ul style="list-style-type: none"> • e-mark (as shown to the right) 	

Positions of marks and information in a disclosure differ depending on the products.

3. Relevant models

The change will take place in the following models.

- MELSEC iQ-R series
- MELSEC iQ-F series
- MELSEC-Q series
- MELSEC-L series
- MELSEC-F series
- MELSEC-QS series
- MELSEC-WS series
- CC-Link
- CC-Link/LT
- CC-Link IE
- PC interface board

Since some models of the MELSEC-A/QnA (large type) series and MELSEC-AnS/QnAS (small type) series are manufactured only for maintenance and repair, these models are excluded according to the directive.

4. Changeover period

The changes will take place for the products manufactured on and after July 2016.

Depending on stock status, both the old and new products may be distributed in the market around that time.

Please be understanding of this matter.
