

Addition of the UKCA Mark Due to the UK's Secession from the EU**■Date of Issue**

March 2021

■Relevant Models

MELSEC series, MELIPC series, and MELSENSOR series

Thank you for your continued support of Mitsubishi Electric programmable controllers MELSEC series, Mitsubishi Electric industrial personal computers MELIPC series, and Mitsubishi Electric FA sensor MELSENSOR series.

Due to the secession of the UK from the EU, the UKCA (UK Conformity Assessment) mark must be indicated on the products distributed and sold on the market in Great Britain instead of the CE mark for the EU unified regulations. Therefore, the UKCA mark will be added to the products manufactured on and after October 2021. There is no impact on the general specifications, performance specifications, functions, and external dimensions of products due to the change.

1 OVERVIEW OF THE UKCA MARK

The UKCA mark is a new mark that will be required for the specific products on the market in Great Britain (England, Wales, and Scotland). It covers most of the products on which the CE mark must be indicated.

The rules and regulations to be satisfied include the Low Voltage Directive, EMC Directive, Machinery Directive, and RoHS Directive.

To distribute and sell the relevant products on the market in Great Britain, it is necessary to comply with the required rules and regulations and to indicate the UKCA mark.

As of the issue date of this technical bulletin, the conformity conditions for the UKCA mark are the same as those for the CE mark.

2 RELEVANT MODELS

MELSEC series, MELIPC series, and MELSENSOR series (excluding the models that do not comply with the CE Marking, discontinued models, and models scheduled to be discontinued).

For the models that do not comply with the CE Marking, discontinued models, and models scheduled to be discontinued, please consult your local Mitsubishi Electric representative.

3 DETAILS ON THE CHANGE

The following UKCA mark will be indicated on the product and packaging label.

The image shows the UKCA mark, which consists of the letters 'UK' stacked above the letters 'CA' in a bold, sans-serif font.

FA-A-0335-A

4 CONDITIONS FOR DISTRIBUTION DURING TRANSITION PERIOD

Transition period	Conditions for distribution on the market in Great Britain
January 1, 2021 to December 31, 2021	Products with the CE mark instead of the UKCA mark can be distributed.
January 1, 2022 to December 31, 2022	When the UKCA mark is indicated on the packaging and attached documents, the products can be distributed even though the CE mark is indicated on the products.
On and after January 1, 2023	Only the products on which the UKCA mark is indicated can be distributed.

5 DATE OF CHANGE

The change will take place one by one for products on and after October 2021. Some products, however, may be delivered ahead of schedule.

Note that, depending on stock status, both the old and new products may be distributed in the market around that time.

For details, please consult your local Mitsubishi Electric representative.
