

Mitsubishi Electric Corporation **Industrial** Robot

MELFA Technical News

BFP-A6079-0197E

June 2017

Subject: Report of R56TB/R57TB Version 4.0 release

Applicable to: FR series, F series, SQ series, SD series
(CR800/ CR750/ CR700 series robot controller)

Thank you for your continued support of Mitsubishi industrial robot "MELFA".
This Technical news describes the new version 4.0 of **R56TB/R57TB**.

R56TB: CR800/CR750/CR700

R57TB: CR751

<Additional function>

- **It corresponds to FR series (CR800).**

R56TB of Software Ver. 3.4 and earlier can not be used in the FR series. When connecting to the FR series, please update the R56 TB software to version 4.0 or later. Please see the FA site for the update method. (<http://www.mitsubishielectric.com>)

<Bug correction>

- **Fixed a bug that certain controller keys can not be operated when restarting controller from RT ToolBox 2/3.**
